## TRUSTEES' REPORT (INCLUDING DIRECTORS' REPORT AND STRATEGIC REPORT) FOR THE YEAR ENDED 31 DECEMBER 2021

---

The trustees, who are also directors of the charity present their report and financial statements for the year ended 31 December 2021.

The financial statements have been prepared in accordance with the accounting policies set out in note 1 to the financial statements and comply with the charity's Deed of Trust, the Companies Act 2006 and "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019)".

### Objectives and activities

Food for the Hungry (FH-UK) is a Christian organisation committed to working with poor people to overcome hunger and poverty. It does so as part of a family of autonomous national Food for the Hungry organisations. These collaborate and channel their support through a single international implementation arm to Field Offices in over 19 of the world's poorest countries.

FH-UK seeks to create public benefit and to share the love of Christ by raising funds for FH work overseas and through informing and engaging people in the UK in the causes of physical and spiritual hunger and poverty, sharing its vision of community and the appropriate Christian responses to all forms of poverty.

FH-UK continues to facilitate the visit of teams from this country to FH field locations. Teams number 2-15 people, and are generally of approximately 1-2 weeks duration.

FH-UK also seeks to create public benefit by raising funds to support the work of individuals who are prepared to live among the poorest communities overseas where their skills provide significant benefit to the local population. Overseas staff are engaged in raising financial support to cover their secondment costs from churches and from family and friends, with the assistance and facilitation of FH-UK.

FH-UK and FH conduct their programmes without discrimination by politics, religion, disability or gender.

FH-UK maintains contact with other British Non-Governmental Development Organisations through membership of BOND (the British Overseas NGOs in Development). We are also members of Global Connections and Restored, a UK based organisation addressing issues of violence against women.

Main specific objectives for the year included

- Evaluating new routes to grow the income base that supports the charity
- Assessing and mitigating the impact of COVID-19 across the operations of the charity in the UK and on the field-based projects it supports.
- Maintaining the UK support base for the Family and Community Transformation programme in Bangladesh
- Supporting existing Community Transformation projects in Buuri in Kenya, and Mwumba in Burundi
- Successful delivery of the projects supported by grants from the UK Government's Foreign, Commonwealth and Development Office (FCDO) and projects funded by Guernsey Overseas Aid Commission (GOAC) and the Faroe Islands.
- Obtaining grants for specific FH field projects
- Raising money for overseas appeals
- Supporting the existing base of individual sponsors of a number of FH Child-Focussed Community Transformation projects in Africa, Latin America and Bangladesh
- Supporting our overseas secondees

### Public benefit

The trustees have complied with their duty to have due regard to the Charities Commission's public benefit guidance when exercising any powers or duties to which the guidance is relevant.

## TRUSTEES' REPORT (INCLUDING DIRECTORS' REPORT AND STRATEGIC REPORT) (CONTINUED)

### FOR THE YEAR ENDED 31 DECEMBER 2021

---

The trustees have paid due regard to guidance issued by the Charity Commission in deciding what activities the charity should undertake.

#### **Staff and Volunteers**

The charity has one part time employee who assists in the securing of grants from trusts and governmental sources. The roles carried out in 2021 by our volunteers and the approximate percentage of a full-time position these represent are as follows:

1. CEO 100%
2. Program Manager 100%
3. Project Manager 40%
4. Book keeper 30%
5. Child Sponsorship communications 60%

#### **Strategic report**

The description under the headings "Achievements and performance" and "Financial review" meet the company law requirements for the trustees to present a strategic report.

#### **Achievements and performance**

##### COVID-19

The implications of COVID-19 have been far-reaching. To respond to these challenges, FH-UK (following the lead of FHA) has adjusted its programmes based on the four pillars listed below:

Pillar 1 – Adapting existing programming to ensure staff and community safety.

Pillar 2 – Providing essential life-saving services wherever necessary.

Pillar 3 – Active reduction of the spread of COVID-19

Pillar 4 – Early recovery.

With the emergence of effective COVID-19 vaccines, FH-UK is using its best efforts to ensure an equitable distribution of these vaccines to the most vulnerable in the areas where we work.

Within the UK, fund-raising has affected a number of planned events but this has been offset by an increase in donations overall. The UK Government reduced funding for the financial year 2021 for international development in general, which affected our UK Aid projects. All FH-UK staff have been able to adapt to remote working, although it has not been possible to make any field visits or to organise any team visits in 2021.

Overall, COVID-19 has not to date, materially affected our financial or administrative support base in the UK and we have generally been able to adapt our field programmes to take account of its impact. We hope that the impact of COVID19 will progressively decrease in the future but we will continue to monitor and assess any further impacts in 2022.

## TRUSTEES' REPORT (INCLUDING DIRECTORS' REPORT AND STRATEGIC REPORT) (CONTINUED)

### FOR THE YEAR ENDED 31 DECEMBER 2021

---

#### Field Activities:

In 2018 FH-UK secured a multi-year grant government grant from FCDO's Aid Direct fund in respect of a food security and nutrition project in Namutumba in Uganda. A further project was secured in 2019 in respect of increasing pastoralists' income in Northern Kenya.

The expected level of funding for both projects was reduced by the FCDO in the aftermath of COVID-19. Both projects were adapted and have now been successfully delivered and the final reports submitted to FCDO. The project's objectives were met and favourable ratings received from the FCDO in their final project appraisals.

The long-term sponsorship of the Buuri Cluster Community in Kenya continued to progress well during the year. It has been agreed to expand the scope of this project and plans have been put in place to provide the additional funding required. This project continues to benefit from significant support from the SDL Foundation, for which we are extremely grateful.

FH-UK continues to support the activities of FH Bangladesh in delivering their Family and Community Transformation programme. This programme is run in particularly vulnerable and disadvantaged communities where women are deprived and mistreated. The primary tool within this programme is running local learning and savings groups, helping to empower 12-20 women to realise their potential and, through economic development, lift their families out of poverty.

Mwumba is one of the poorest communities in northern Burundi and FH-UK has been supporting a long-term small-scale development project there since 2010. Following a full strategic review of the project in 2018, it was agreed to substantially increase the support to this community from 2019 onwards. Since then there has been a significant increase in the scale of the project and the financial commitment required to underpin this. Increasing the scale of the project delivers greater economies of scale and improves the efficiency of the resources employed, enabling our programme to have an impact on a significant proportion of the community. The aim is that the whole community can graduate to a self-sustaining position within about 5 years.

#### Overseas Staff:

Tom MacGregor continued his multi-year assignment in Rwanda. Tom has established a marketing company called Azizi Life, selling a number of successful product lines to customers overseas, and is assisting in developing the local tourist industry. FH-UK has secured donor support to fund an expansion of Azizi Life's facilities in Rwanda which is expected to be completed during 2022. Costs for seconded international staff (SIS) are covered by designated income. This designated income covers their personal allowance plus a contribution to UK administration and in all cases is also sufficient to provide a fund for contingencies and home visit costs.

#### Team Visits:

There were no team visits during the year due to the impact of COVID-19

#### Staff:

Mr Paul Cornelius continued to hold the position of Chief Executive, Food for the Hungry UK during 2021. Mr Cornelius has significant experience of leadership positions in business as well as being an active Christian within his local community. Mr Cornelius is standing down as CEO at the end of December 2021 and will be succeeded by Mr Ian Johnson.

In addition, the charity benefits from the support of a number of part-time or full-time volunteers who are involved in the UK administration of Child Development Programmes, the organisation of team visits, applications for grants from Governments and Trusts and the day-to-day management of the Charity's finances. A consultant continued to be contracted during 2021, supported by a part-time employee, to help with applications to Trusts and Foundations and governmental sources of funding.

The results of the company for the year ended 31 December 2021 are set out in the attached financial statements drafted in accordance with the Companies Acts. #### **Reserve policy**

Generally the trustees do not seek to hold large reserves. Historically the trustees have considered it prudent to retain sufficient reserves to enable the charity to operate for 1-2 years on regular but lower levels of income. In addition the trustees hold additional reserves to fund new income raising opportunities and to manage short-term fluctuations in the funding of individual projects. This policy was maintained in 2021 based on the Charity's current administrative cost base.

At 31st December 2021 the Charity's reserves stood at £104,810 This figure is considered consistent with meeting the objectives set out by the trustees above.

The results of the company for the year ended 31st December 2021 are set out in the attached financial statements drafted in accordance with the Companies Acts. The trustees of the charity consider the results for the year to be positive as they represent an increase in the level of funds raised and expenditure on projects compared with 2020.

There are no investments of the company, other than savings and deposit accounts that provide ready access to the funds. The policy of the company is:

1. Monies must not be invested in any instrument where ethical or reputational issues are contrary to the values of FH-UK or FH.
2. The principal or capital amounts invested must not be at risk.

#### **Risk management**

The trustees have assessed the major risks to which the charity is exposed, and are satisfied that systems are in place to mitigate exposure to the major risks.

Risk Management Policy: a comprehensive review of risks is undertaken by the Finance and Risk Sub-Committee and documented in a Risk Register. This register also identifies key risks to be managed together with a Risk Mitigation Action plan. It was reviewed twice by the Board of Trustees during 2021.

Key risks that have been identified include:

- a) Board Membership. The Board will continue to look for the opportunity to recruit further trustees with appropriate skills and experience.
- b) Vulnerability to loss of key staff members. This has in part been addressed by agreeing the process to be followed to put in place a successor to the current CEO and by expanding the number of volunteers in key areas.
- c) Overseas staff support depends on a small number of key staff members in the UK. This has been addressed by greater integration of the support offered from the UK with that provided by FH International to all field-based secondees. This risk has also reduced as there is at the present time only one individual on secondment.
- d) The potential impact of COVID-19 on the UK operations of the Charity and on the field-based projects that FH-UK supports. The Charity carried out a full review of the risks associated with COVID-19 and associated mitigation plans in 2021

Employer's Liability, Public Liability and Legal Expenses have been insured under a Charity Connect policy with Ansva.

#### Plans for future periods

The Board of FH-UK has determined that the following will be the principal ways that FH-UK will aim to create public benefit:

- Maintaining support for Child Focussed Community Transformation Programmes (CFCT) in designated locations.
- Maintaining the individual donor support base for the Family and Community Transformation Programme in Bangladesh and seeking additional funding from appropriate grant giving organisations in the UK.
- Maintaining and expanding the ongoing financial support for our designated Community Partnerships through to the successful graduation of an individual community at the end of their project. Currently we have partnerships of this type with the Mwumba cluster of communities in Burundi and the Buuri cluster of communities in Kenya.
- Continuing to explore strategic partnerships with other third sector organisations whose aims and activities are consistent with FH-UK's vision and values
- Securing grants from governmental sources (FCDO, GOAC, JOAC and Faroe Islands) to fund projects which deliver significant improvements to communities in FH-UK's target countries
- Continuing to support our existing International Secondees who work for the benefit of the communities they serve in sub-Saharan Africa.

For 2022 the key areas of focus will be:

1. Develop a new strategy for FHUK which will be compatible with the organisation-wide strategy review being carried out by FHA. The FHA strategy review is underway and is due to be completed in the first half of 2022.
2. Maintaining and developing our relationship with GOAC, Faroe Islands and establishing a relationship with JOAC
3. Being ready to apply for further grants if applications for new programmes are invited by the FCDO.
4. Identifying and securing new sources of project funding
5. Supporting and expanding the scope of the programme with communities in the region of Mwumba in Burundi and the Buuri cluster of communities in Kenya.
6. Maintaining an effective response to the challenges presented by the Covid-19 pandemic.

#### Structure, governance and management

The charity is controlled by its governing document, a Deed of Trust, and constitutes a Limited Company, limited by guarantee, as defined by the Companies Act 2006.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

---

### 1 Accounting policies

#### Charity information

Food For The Hungry UK is a private company limited by guarantee incorporated in England and Wales. The registered office is 15 Palace Street, NORWICH, Norfolk, NR3 1RT, United Kingdom.

#### 1.1 Accounting convention

The financial statements have been prepared in accordance with the charity's [governing document], the Companies Act 2006, FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the Charities SORP "Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102)" (effective 1 January 2019). The charity is a Public Benefit Entity as defined by FRS 102.

The financial statements are prepared in sterling, which is the functional currency of the charity. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention, [modified to include the revaluation of freehold properties and to include investment properties and certain financial instruments at fair value]. The principal accounting policies adopted are set out below.

#### 1.2 Going concern

At the time of approving the financial statements, the trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. Thus the trustees continue to adopt the going concern basis of accounting in preparing the financial statements.

#### 1.3 Charitable funds

Unrestricted funds are available for use at the discretion of the trustees in furtherance of their charitable objectives.

Restricted funds are subject to specific conditions by donors as to how they may be used. The purposes and uses of the restricted funds are set out in the notes to the financial statements.

Endowment funds are subject to specific conditions by donors that the capital must be maintained by the charity.

#### 1.4 Income

Income is recognised when the charity is legally entitled to it after any performance conditions have been met, the amounts can be measured reliably, and it is probable that income will be received.

Cash donations are recognised on receipt. Other donations are recognised once the charity has been notified of the donation, unless performance conditions require deferral of the amount. Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

Legacies are recognised on receipt or otherwise if the charity has been notified of an impending distribution, the amount is known, and receipt is expected. If the amount is not known, the legacy is treated as a contingent asset.

##### 1.5 Expenditure

Liabilities are recognised as expenditure as soon as there is a legal or constructive obligation committing the charity to that expenditure, it is probable that a transfer of economic benefits will be required in settlement and the amount of the obligation can be measured reliably. Expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all cost related to the category. Where costs cannot be directly attributed to particular headings they have been allocated to activities on a basis consistent with the use of resources.

Grants offered subject to conditions which have not been met at the year end date are noted as a commitment but not accrued as expenditure.

Charitable expenditure comprises grants made to fund the overseas work of FH as well as the costs incurred by the charity in making the grants, recruiting and sending appropriate people to assist where needed and informing people in the UK about the causes of physical and spiritual hunger and poverty, and about appropriate Christian responses.

##### 1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Computers	30% on reducing balance
-----------	-------------------------

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the statement of financial activities.

##### 1.7 Impairment of fixed assets

At each reporting end date, the charity reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

##### 1.8 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

##### 1.9 Financial instruments

The charity has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the charity's balance sheet when the charity becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

### 1 Accounting policies

(Continued)

#### Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

#### Basic financial liabilities

Basic financial liabilities, including creditors and bank loans are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

#### Derecognition of financial liabilities

Financial liabilities are derecognised when the charity's contractual obligations expire or are discharged or cancelled.

#### 1.10 Taxation

The charity is exempt from corporation tax on its charitable activities.

#### 1.11 Employee benefits

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the charity is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

#### 1.12 Foreign exchange

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

### 2 Critical accounting estimates and judgements

In the application of the charity's accounting policies, the trustees are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.
